Vil'Star *will be your star*

We, as a Vil'Star family, are dedicated to centralise health and principled agricultural -both old and new- methods and by that bringing together the niche Anatolian values with all our customers all around the world.

We present the Anatolian Villages' Stars like cherry, olive oil, almond and many delicious vegetables to the gourmes. We produce the natural foods with love and compassion which are the heritage of thousands of years from the Anatolia and collect them with qualified domestic methods. By taking care of natural beauty, meanwhile we provide healthy flavours to international cousine worldwide.

Vil'Star is established in 2018 within "Ozken Customs Brokery Company and Consulting Inc." that was being established in 2010. Vil'Star, as bringing together the local food choices and unique Anatolian flavor with the "boutique product range", aim to get accepted every customer having any kind of culture in all locations on Earth. To reach the target we, as a Vil'Star family, know that "moderate, distinguished and disciplined systematical approach" we must do have and so Vil'Star maintain all its dynamics with this concept and proceed without any delay.

We do guarantee in our vision and mission as a "local partnership" for your needs of any kind with our professional team and modern concept of business all around the world.

Which flavors we offer?

Vil'Star offers the flavors of Anatolian lands, that are unique as a special and natural resources, to the gourmes. The flavor and the quality that are brought together is not a coincidence. By staying loyal to the traditional methods for hundreds of years, we offer the flavors with all their natural beauties inside. Our products, as being certificated by many agencies worldwide, also have many prizes in sector. And took some special rewards from prestigious institutions.

Customs Tariff	
Statistics Positions (CTSP)	: 0809.29.00

POMEGRANATE

Vil'Star
NATURAL DELICACIES

organic

One of the world's most ancient foods **POMEGRANATE**

It's one of the world's most ancient foods, and it's a symbol of fertility! The pomegranate is an extremely important fruit to the Eastern people's cultures and traditions, as well as their diets. The pomegranate fruit has been used for thousands of years as medicine. Pomegranate has anti-oxidant, anti-viral and anti-tumor properties and is a good source of vitamins, especially vitamin A, vitamin C, and vitamin E, as well as folic acid. Fortunately Turkey is one of the world's most important "pomegranate exporting" countries.

Product Type : Hicaz
Sizes : 6 - 7 - 8 - 10 - 12 per package
Packaging : 4 kg Carton Box or Plastic Basket
Season : September - October - November
December - January

Customs Tariff
Statistics Positions (CTSP) : 08099075

CHESTNUT

organic

Vil'Star
NATURAL DELICACIES

Source of energy **CHESTNUT**

Turkey is the first chestnut producer in Europe regarding the capacity. Third in the World. Our region, the Aegean Peninsula, proudly produces the most capacity of chestnut in Turkey. Chestnut is known for a long time as a valuable plant by producing nut fruit and some products. Chestnut has provided countless benefits to humans with its rich carbohydrates, protein, oil, vitamins, and minerals contents. Also, chestnut is very rich in linoleic acid which is essential for human body structure. Linoleic acid prevents the heart and vascular diseases effectively. As a snack Chestnut is so nutritious and a source of energy.

Packaging	: 5 kg Carton Box or Plastic Basket
Season	: July, August
Customs Tariff	
Statistics Positions (CTSP)	: 0804.2010

OLIVE OIL

Organic

Vil'Star
NATURAL DELICACIES

Extra Virgin Early Harvest **ORGANIC OLIVE OIL**

Extra virgin is the highest quality and most expensive olive oil classification. It should have no defects and a flavor of fresh olives. We do care this process.

It must be produced entirely by traditional and mechanical means without the use of any solvents, and under temperatures that will not degrade the oil.

It's not easy to produce extra virgin olive oil. So we use fresh olives in good condition and monitor every step of the process with great care in our farm. Extra virgin olive oil doesn't stay that way. even in perfect storage conditions, the oil will degrade over time, so it's important to enjoy it within its two-year shelf life.

ALMOND

organic

Thin-shell Nonpareil Organic **RAW ALMONDS**

Our farm's natural certification procedures are done by the CERES (germany).

It was chosen as "The Best Organic Agricultural Farm" in 2015 by "The Organic Agricultural Research Center (FiBL)" from Switzerland and "Turkey's Ecological Agriculture Organization Association (ETO)". In the farm many projects are produced to be an "Organic Agricultural Training Center" in the region.
